WHAT IS DEFI?

Decentralized Finance (DEFI) is an emerging financial Technology based on secure distributed ledgers similar to those used by cryptocurrencies. The system removes the control banks and institutions have on money, financial products, and financial services.

Defi means decentralized finance, is A fast growing sector of the cryptocurrency industry.

Defi emerges in 2020 and stands over \$500 billion dollars today and potential to be D90 trillion in next 10 years.

Decentralized finance includes all financial services/products such as loans, borrowing, investments, remittances. Derivatives, insurances, etc built and run on blockchain.
